**RE: VoiceStream Wireless First Transition Report
Implementation of 911 Abbreviated Dialing Code
CC Docket No. 92-105; WT Docket No. 00-1100**

Dear Tom:

Pursuant to the *Fifth Report & Order* in this Docket,¹ VoiceStream Wireless Corporation (VoiceStream) hereby submits its First Transition Report regarding the transition to 911 as the universal emergency telephone number in those areas where the 911 abbreviated dialing code is not in use.

In the *Public Notice* which followed the release of the *Fifth Report & Order*, the Commission provided further guidance to carriers on the information required to be submitted in their First Transition Reports. Specifically, the reports were to include the following information:

1. Carrier identification information, including the name and address of the reporting carrier, the name of the reporting carrier's parent company, the name of the individual(s) filing the report and contact information including office address and telephone number;
2. The local areas covered by the report;
3. Whether the carrier has identified the point to which 911 calls must be delivered in each local area;

¹ See *Implementation of 911 Act, The Use of N11 Codes and Other Abbreviated Dialing Arrangements*, WT Docket No. 00-110, CC Docket No. 92-105 (rel. December 11, 2001) (*Fifth Report and Order*).

4. The status of the carrier's progress in completing the translation and other work necessary to route 911 calls to the identified emergency response point; and

5. Information concerning any problems encountered in identifying the proper point to which calls should be routed and any operational problems encountered in the initial stage of the transition. To the extent carriers experience problems in identifying where 911 calls should be directed, carriers must describe the efforts they have made in coordinating with public safety agencies and State and local authorities, including the State Governor's designated entity under section 3(b) of the Wireless Communications and Public Safety Act of 1999.²

VoiceStream provides this information below.

Section One: Carrier Identification Information

VoiceStream Wireless Corporation
401 Ninth Street, NW, Suite 550
Washington, DC 20554
(202) 654-5900
(202) 654-5963 (fax)
Contacts: Mr. Jim Nixon; Mr. Bob Calaff

Sections Two, Three and Four: County Information

The following table provides the relevant information for each geographic county area identified in Appendix D to the *Fifth Report and Order*. VoiceStream does not provide coverage in the vast majority of the counties listed in Appendix D. For those counties in which it does provide coverage, VoiceStream indicates whether it has identified the point to which 911 calls must be delivered, and the status of VoiceStream's progress in completing the translation and other work necessary to route the 911 calls to the identified emergency response point.

Section 5 – Problems Encountered

VoiceStream has not encountered any problems to date in identifying the proper point to which calls should be routed or in any operational aspects of the 911 transition. VoiceStream will timely report any problems in its implementation of 911 to the Commission as they may arise.

I certify that I am an authorized representative of VoiceStream, that I have examined the foregoing report and to the best of my knowledge, information and belief, all statements of fact contained in this First Transition Report are true and accurate.

Sincerely,

s/ Brian O'Connor
